### YOUR ATTENTION PLEASE

This months meeting involves you; YES YOU; our valued members. February is jigs and fixtures month. . Members are encouraged to bring their favorite jig or fixture, or perhaps really neat tool, to show your fellow club members so that they might become better woodworkers. We want to keep the show and tell to about 5 minutes per jig, etc. If you think anyone would like a written description/plans of your jig, we encourage you to bring a few copies stating how it is built and how it operates. We look forward to a VERY interesting meeting. We will have tables set up all around the room for you to place your exciting goodies. If you are a bit shy, I am sure we can get someone to describe your favorite woodworking toy for you.

**We Currently Have 44 Members**

**LAST MONTH:** Several vendors presented their lines and answered questions about their products. Each meeting this year 1 or 2 vendors will present at each meeting. We are performing this service so that members will be aware of the products and services our approved vendors carry. Presenters this month are Goddard Rotary tools and Dulux Paints.

## ***MARK YOUR CALENDAR***

California Wildlife Festival 2003 will happen on February 15 (9:30 to 5:00) and 16 (9:00 to 4:00). This all happens at the Al Bahr Shrine Auditorium, 5440 Kearny Mesa Road (same place the San Diego Fine Woodworkers meets). I am told that Saturday is the best day to attend. There are daily auctions. If you have never been to one of these shows, you should attend one. The decoys and other carved critters these folks create and unbelievably lifelike. It is worth the trip to San Diego for this one.

AWFS Fair in Anaheim July 31 through August 3, 2003. This is the BIG show. This show is mostly for manufacturers but the equipment that is shown will knock your socks off.

# PRESIDENTS MESSAGE

We're off and running in 2003! And what a great start it was last month with the largest attendance yet at a monthly meeting--48!! While we do not seek to become a big club in terms of membership, we do strive to have presentations of interest so you will show up at our monthly gatherings. Your input and feedback is vital in this regard. And we had some very positive comments about our Approved Vendors presentations at our January meeting. We appreciate them coming and we certainly appreciate their support of our club! We will continue to invite two or three to each meeting over the coming months, in addition to our regular program.

We still need volunteers to help run our club. Our by-laws require that elected officers may only serve up to two consecutive years in their respective positions. Since we are now in our second year, we will need to fill some positions with new faces when we have elections in August. So by getting involved now, you will have ample time to "learn the ropes" and be ready to assume a leadership position when the time comes. So think about it and step forward! Feel free to talk to me or any of our board members about what you can do to get involved.

Our February meeting will be a real treat!! A "Jigs and Fixtures" night was the number one request on the member survey. I can hardly wait to see all the neat jigs and fixtures you bring in. This is a great time to share some of the woodworking techniques you have developed in your shop. Try to bring along a rough plan of how to make the jig or fixture.

Remember-we are in a new year and dues are payable!! I think all would agree, you get a lot for 20 bucks!!

Good Woodworking and see you on February 20th!!

Tom Lightner  
President

## PROGRAMS IN THE COMING MONTHS

March: Nan Bushley, well known woodturner, will present a program on basic woodturning. Techniques and some of her experiences will be shared. This will be an informative meeting with a lathe on site for demonstrations. Thanks to Ken Haines for volunteering his lathe.

April: Mitch with D & D Tool will present a program on bandsaw operation and tune up. One of the handiest machines in any shop is the bandsaw. One well tuned is a must, Mitch has been around bandsaws all his life and will present goodies you may never have thought of.

May and June are in the confirmation process.

July : Our fellow member Rich Kerrell will demonstrate box making techniques and display some examples of his work. Rich works for Carvin, a company that manufactures guitars and has brought the club very nice Ebony scraps and wood for the vendor plaques.

Steve Alwardt (this will put him on the spot) will present French Marquetry in the Fall.

Butch's hand Surgeon may give a presentation on the reasons not to meet him by accident.

Look for shop tours in the coming months.....

Oh fudge!! Nobody sent me any goodies.

Try this on for size. I would like to make woodworking or related articles, written by our members, available on the web site. Can you write? Do you have a special tidbit that you would willingly pass along to the membership? Please contact me with your input. I will assist in editing if you provide a starting text. Pictures work too.

### Refreshments:

Thanks to Butch Baskins for providing drinks and those marvelous goodies each meeting. Please do not forget to donate your change to his coffee can.
